PRESS RELEASE

Never Say Never! Reproductive Health Specialists, Inc., Holds Free Fertility Seminars For Couples Trying to Get Pregnant

Dr. Judith Albert will Discuss the Latest Advancements in Reproductive Health

PITTSBURGH, PA (April 25, 2005) Never say never! Reproductive Health Specialists, Inc., (RHS) a local fertility clinic, is offering a seminar, free and open to the public, on the latest advances in fertility treatments for those trying to get pregnant. Judith Albert, M.D., Scientific Director of RHS, will discuss reproductive health and help attendees decide which treatment option may be the best for them. The seminar will be held at two different times and locations: May 3, 2005 at 7 PM, Hand Center, Wexford, and again on May 4, 2005 at 7 PM, Springhill Suites, Robinson.

Those interested in attending should call 412-731-8000 to RSVP or register online at www.ivfpittsburgh.com.

Approximately one in ten couples will experience difficulty conceiving due to infertility, but with the appropriate diagnostic evaluation and treatment, many people are making their dreams of having children come true. In this evolving field, new and improved fertility drugs and procedures have helped pregnancy rates to soar over the past few years.

As specialists and pioneers in reproductive health, the doctors at RHS have established a practice that provides these advanced and effective treatments to patients and offers highly personalized care in a soothing, non-clinical environment.

Dr. Albert has been actively involved in research and teaching in the fields of OB/GYN and Reproductive Endocrinology and Infertility for 19 years. She recently lectured at the American Fertility Association's (AFA) Annual National Patient Symposium, titled the *National Fertility and Adoption Conference 2005*, in New York City.

-more-

Her experience includes serving as Medical Director of the In Vitro Fertilization Program at Magee-Womens Hospital, University of Pittsburgh Medical Center (1997-2000), as well as holding various academic positions at both the University of Pennsylvania School of Medicine and the University of Pittsburgh School of Medicine. Dr. Albert is board certified in OB/GYN (1990) from the American Board of Obstetrics and Gynecology, with a subspecialty in Reproductive Endocrinology and Infertility (1992).

Reproductive Health Specialists, Inc., (RHS) is the tri-state area's leading, independent, woman-owned and operated reproductive endocrinology and fertility center focused on one goal: helping every patient to have a baby. Since the practice's inception in 2000, over 300 babies have been born!
