FOR IMMEDIATE RELEASE

RHS Doctor Named One of Pittsburgh's Best

Dr. Carolyn Kubik appears on Pittsburgh Magazine's list of Top Doctors

PITTSBURGH – May 7, 2007 – Medical Director of Reproductive Health Specialists (RHS) Dr. Carolyn Kubik was named one of the region's Top Doctors by *Pittsburgh Magazine* in its May 2007 issue. Each year, the magazine surveys thousands of health professionals in the Pittsburgh area to find out which doctors they would entrust with a family member who had a specific medical problem. For the third year, Dr. Kubik was recommended by her peers in the Obstetrics and Gynecology category.

Dr. Kubik previously appeared on the list in 2006 and 2002. As Medical Director of Monroeville-based RHS, Dr. Kubik oversees aspects of quality assurance and patient care and education. A specialist in Reproductive Endocrinology and Infertility, she co-founded RHS in 2000 with Dr. Judith Albert to help patients overcome infertility with a holistic approach in a non-clinical environment.

Before co-founding RHS, Dr. Kubik was the first woman to serve as Administrative Chief Resident of the OB/GYN Residency Program at UPMC's Magee-Womens Hospital. She later served as Medical Director of the Assisted Reproductive Technology Program and Director of the Division of Reproductive Endocrinology.

Reproductive Health Specialists, Inc. (RHS) is the region's only independent, women-owned and operated reproductive endocrinology and fertility center focused on one goal: helping every patient to have a baby. The practice has two locations: Monroeville and Wexford.
