FOR IMMEDIATE RELEASE

Dr. Kubik Named a Top Fertility Specialist in Pittsburgh

RHS doctor recognized as one of Pittsburgh Magazine's "Top Docs" for a sixth year

Pittsburgh, Pa. – May 5, 2010 – Dr. Carolyn Kubik has been honored for her holistic approach to fertility care by being named a “Top Doctor” in the field of reproductive endocrinology by [Pittsburgh Magazine](#). Co-founder and medical director of Reproductive Health Specialists (RHS), Dr. Kubik is one of only two fertility doctors in the Pittsburgh area to be named to the prestigious list.

Pittsburgh Magazine's “Top Doctors” list is the result of an annual poll of medical health professionals in Western Pennsylvania to find out which doctors they would entrust with a family member who had a specific medical problem. This is the sixth year that Dr. Kubik was chosen by her peers, having received the honor in 2009, 2008, 2007, 2006 and 2002.

Dr. Kubik co-founded RHS in 2000 with Dr. Judith Albert to provide a more personalized, holistic approach to fertility care. Patients address the emotional and financial aspects of fertility at RHS, in addition to receiving traditional medical procedures such as in vitro fertilization (IVF).

Dr. Kubik has 25 years of experience in the field of reproductive endocrinology. Before RHS, Dr. Kubik was the first woman to serve as administrative chief resident of the OB/GYN Residency Program at UPMC's Magee-Womens Hospital. She later served as medical director of the Assisted Reproductive Technology Program and director of the Division of Reproductive Endocrinology.

Reproductive Health Specialists, Inc. (RHS) is the region's only independent, women-owned and operated reproductive endocrinology and fertility center focused on one goal: helping every patient to have a baby. The practice has two locations: Monroeville and Wexford.
